

## **Clinical Policy: Hypoglycemics, Alpha-Glucosidase Inhibitors**

Reference Number: PHW.PDL.062

Effective Date: 01/01/2020

Last Review Date: 11/2023

[Revision Log](#)

### **Policy/Criteria**

*Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.*

It is the policy of PA Health & Wellness<sup>®</sup> that Alpha-Glucosidase Inhibitors are **medically necessary** when the following criteria are met:

### **I. Requirements for Prior Authorization of Hypoglycemics, Alpha-Glucosidase Inhibitors**

#### **A. Prescriptions That Require Prior Authorization**

Prescriptions for Hypoglycemics, Alpha-Glucosidase Inhibitors that meet any of the following conditions must be prior authorized:

1. A prescription for a non-preferred Hypoglycemic, Alpha-Glucosidase Inhibitor.
2. A prescription for a preferred Hypoglycemic, Alpha-Glucosidase Inhibitor with a prescribed quantity that exceeds the quantity limit.

#### **B. Review of Documentation for Medical Necessity**

In evaluating a request for prior authorization of a prescription for a Hypoglycemic, Alpha-Glucosidase Inhibitor, the determination of whether the requested prescription is medically necessary will take into account whether the recipient:

1. For a non-preferred Hypoglycemics, Alpha-Glucosidase Inhibitor, has a history of therapeutic failure of or a contraindication or an intolerance to the preferred Hypoglycemics, Alpha-Glucosidase Inhibitors;

**AND**

2. If a prescription for a Hypoglycemic, Alpha-Glucosidase Inhibitor is in a quantity that exceeds the quantity limit, the determination of whether the prescription is medically necessary will also take into account the guidelines set forth in PA.CP.PMN.59 Quantity Limit Override.

NOTE: If the member does not meet the clinical review guidelines listed above but, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the member, the request for prior authorization will be approved.

C. Clinical Review Process

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section B. above, to assess the medical necessity of the request for a prescription for a Hypoglycemic, Alpha-Glucosidase Inhibitor. If the guidelines in Section B are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior authorization will be approved when, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the recipient.

D. Approval Duration: 12 months
