

## Clinical Policy: Local Anesthetics, Topical

Reference Number: PHW.PDL.728

Effective Date: 01/01/2020

Last Review Date: 11/2023

[Revision Log](#)

### Policy/Criteria

*Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.*

It is the policy of PA Health and Wellness<sup>®</sup> that Local Anesthetics, Topical are **medically necessary** when the following criteria are met:

### I. Requirements for Prior Authorization of Local Anesthetics, Topical

#### A. Prescriptions That Require Prior Authorization

Prescriptions for Local Anesthetics, Topical that meet any of the following conditions must be prior authorized:

1. A non-preferred Local Anesthetic, Topical.
2. Oral viscous lidocaine solution and oral lidocaine jelly when prescribed for a beneficiary under 3 years of age.

#### B. Review of Documentation for Medical Necessity

In evaluating a request for prior authorization of a prescription for a Local Anesthetic, Topical, the determination of whether the requested prescription is medically necessary will take into account whether the beneficiary:

1. For a non-preferred Local Anesthetic, Topical, has a history of therapeutic failure, intolerance, or contraindication of the preferred Local Anesthetics, Topical; **AND**
2. For oral viscous lidocaine solution and oral lidocaine jelly when prescribed for a beneficiary under 3 years of age, **all** of the following:
  - a. Is not prescribed oral viscous lidocaine solution or oral lidocaine jelly for the treatment of teething pain,
  - b. For all other indications, has documented therapeutic failure, contraindication, or intolerance of alternative recommended treatments for the beneficiary's indication,

- c. Is prescribed a dose that is consistent with U.S. Food and Drug Administration (FDA)-approved package labeling, nationally recognized compendia, or peer-reviewed medical literature.

NOTE: If the beneficiary does not meet the clinical review guidelines above but, in the professional judgement of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary, the request for prior authorization will be approved.

**C. Clinical Review Process**

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section C. above to assess the medical necessity of a prescription for a Local Anesthetic, Topical. If the guidelines in Section C. are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior authorization will be approved when, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary.

**D. Approval Duration: 6 months**

**E. References**

1. FDA Drug Safety Communication: FDA recommends not using lidocaine to treat teething pain and requires new Boxed Warning. June 24, 2014.
