

THE CENTERS FOR MEDICARE AND MEDICAID (CMS) RELEASE BILLING GUIDELINES FOR COVID-19 VACCINE

PA Health & Wellness is closely following advancements in the prevention and treatment of COVID-19, including vaccinations. As a healthcare provider, you will play an integral role as COVID-19 vaccines become available. We want to update you on important new information about vaccine coverage.

To prepare for vaccine administration, the Centers for Medicare and Medicaid (CMS) have [published billing guidelines](#) for Medicare providers. Similar to other COVID-19 services, the vaccines will be offered at no cost to your patients. However, please be aware the following billing specifics:

- For Calendar Years (CYs) 2020 and 2021, Medicare payment for the COVID-19 vaccine and its administration for Medicare Advantage plan members will be made through the original fee-for-service Medicare program.
- PA Health & Wellness will **not** be able to process these claims.
- Therefore, providers **must** submit claims for administering the COVID-19 vaccine to their [CMS Medicare Administrative Contractor](#) (MAC) using product-specific codes for each vaccine approved.

The American Medical Association (AMA) has published updates to the Current Procedural Terminology (CPT®) code set that includes new vaccine-specific codes to report immunizations for the novel coronavirus (SARS-CoV-2). The code set will continue to be updated as additional

vaccines receive emergency use authorization (EUA) approval by the U.S. Food & Drug Administration (FDA).

The following codes have been published as of November 10, 2020. However, they will not be billable until the specific vaccine receives official EUA approval.
