Wellcare by Allwell is partnering with Healthmap Solutions (Healthmap) to provide care coordination services within our kidney health management (KHM) program. As a leading national kidney health management company, the partnership with Healthmap will provide more comprehensive care for members with chronic kidney disease (CKD) stages 3b, 4, 5, and end stage renal disease (ESRD).

If you have a patient with kidney disease, or chronic conditions that may lead to kidney disease, Healthmap may contact you to facilitate care. Healthmap provides collaborative recommendations through workflow-friendly clinical decision support.

Healthmap's KHM program integrates into your existing practice workflow to complement your patient's current plan of care. Healthmap can supply you with actionable information, based on industry proven best practices, and powered by data analytics, to more effectively anticipate and deliver the right clinical care.

We appreciate your ongoing care for our members. Be on the lookout for outreach from Wellcare by Allwell and Healthmap for the introduction to our kidney health management (KHM) program. If you have any questions or concerns, please contact your Provider Representative directly or reach out to Provider Relations at [PHWProviderRelations@pahealthwellness.com](mailto:PHWProviderRelations@pahealthwellness.com).

Sincerely,  
Wellcare by Allwell
