

At PA Health & Wellness, your feedback plays a critical role in how we improve the way we work with providers. Over the past few years, we've expanded how we listen to you by implementing more frequent opportunities for feedback. Now, we're excited to invite you to participate in the next phase of this effort, the Provider Advisory Community.

What is the Provider Advisory Community?

The Provider Advisory Community is a private, online space for providers in our network to share their perspective on administrative and clinical challenges, digital tools, opportunities for improvement, and the overall experience working with us. Plus, you'll get a first-hand look at upcoming initiatives and updates, so we can gather feedback in near real-time to drive improvements.

Participation includes taking surveys, quick polls, and participating in occasional community-based discussions. Every activity is designed to be simple and relevant to respect your time, and new activities are available weekly. As an additional benefit, you'll be eligible to receive incentive rewards for engagement in specific activities.

How can you join the Provider Advisory Community?

If you're interested in participating in the community, please register using this link [Provider Advisory Community](#). Following registration, you will receive additional information and instructions from our partner, Fuel Cycle.

If you'd like to extend this invitation to staff in your practice who frequently engage with us, please feel free to share the registration link with them.

Thank you for considering this opportunity. Your feedback can help us drive meaningful change for Providers and their practices.

If you have any questions, please reach out to Providertraining@pahealthwellness.com
