See <u>Important Reminder</u> at the end of this policy for important regulatory and legal information.

Policy Overview

Cosmetic procedures or procedures connected with the cosmetic surgery are not reimbursable. The Centers for Medicare and Medicaid Services (CMS) define cosmetic procedures as "any surgical procedure, directed at improving appearance, except when required for prompt (i.e., as soon as medically feasible) repair of accidental injury or for the improvement of the functioning of a malformed body member."

Application

This policy applies to professional and institutional claims.

Policy Description

Reimbursement

The Health Plan's code editing software will review claim lines to determine if a procedure code is potentially cosmetic in nature.

If a procedure code is identified, the current claim and claims history will be reviewed (prior to payment) by a clinical review nurse to determine if the procedure appeared to be purely cosmetic in nature:

Example

Breast surgery is performed on a patient with a history of breast cancer and a mastectomy is found in claims history.

In the above example, the surgery is recommended for payment since the procedure was not performed for purely cosmetic purposes.

If the current claim information and claims history does not support a clinically appropriate circumstance; the claim line billed with the cosmetic procedure code and all associated procedures identified as related to the procedure will be denied.

Important Reminder

For the purposes of this payment policy, "Health Plan" means a health plan that has adopted this payment policy and that is operated or administered, in whole or in part, by PA Health & Wellness, or any other of such health plan's affiliates, as applicable.

The purpose of this payment policy is to provide a guide to payment, which is a component of the guidelines used to assist in making coverage and payment determinations and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage and payment determinations and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable plan-level administrative policies and procedures.

This payment policy is effective as of the date determined by Health Plan. The date of posting may not be the effective date of this payment policy. This payment policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this payment policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. Health Plan retains the right to change, amend or withdraw this payment policy, and additional payment policies may be developed and adopted as needed, at any time.

This payment policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members. This payment policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this policy are independent contractors who exercise independent judgment and over whom Health Plan has no control or right of control. Providers are not agents or employees of Health Plan.

This payment policy is the property of PA Health & Wellness. Unauthorized copying, use, and distribution of this payment policy or any information contained herein are strictly prohibited. Providers, members and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members and their representatives agree to be bound by such terms and conditions by providing services to members and/or submitting claims for payment for such services.

Note: For Medicaid members, when state Medicaid coverage provisions conflict with the coverage provisions in this payment policy, state Medicaid coverage provisions take precedence. Please refer to the state Medicaid manual for any coverage provisions pertaining to this payment policy.

Note: For Medicare members, to ensure consistency with the Medicare National Coverage Determinations (NCD) and Local Coverage Determinations (LCD), all applicable NCDs and LCDs should be reviewed <u>prior to</u> applying the criteria set forth in this payment policy. Refer to the CMS website at <u>http://www.cms.gov</u> for additional information.
