Q1 2021 annual review: no changes.

Name of Authorized Individual (Please type or print): **Auren Weinberg, MD**	**Signature of Authorized Individual:**

Clinical Policy: Glucocorticoids, Oral

Reference Number: PHW.PDL.168
Effective Date: 01/01/2020
Last Review Date: 01/2021

Revision Log

Policy/Criteria
Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.

It is the policy of health plans affiliated with PA Health and Wellness® that Oral Glucocorticoids are **medically necessary** when the following criteria are met:

I. Requirements for Prior Authorization of Glucocorticoids, Oral

A. Prescriptions That Require Prior Authorization

Prescriptions for Glucocorticoids, Oral that meet any of the following conditions must be prior authorized:

1. A prescription for a non-preferred Glucocorticoids, Oral, regardless of the quantity prescribed.

2. A prescription for a preferred Glucocorticoid, Oral with a prescribed quantity that exceeds the quantity limit.

B. Clinical Review Guidelines and Review of Documentation for Medical Necessity

In evaluating a request for prior authorization of a prescription for a non-preferred Glucocorticoid, Oral, the determination of whether the requested prescription is medically necessary will take into account whether the recipient:

1. Has a history of therapeutic failure, contraindication or intolerance to the preferred Glucocorticoids, Oral

OR

2. Does not meet the clinical review guidelines listed above, but, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the recipient.

3. In addition, if a prescription for either a preferred or non-preferred Glucocorticoid, Oral is in a quantity that exceeds the quantity limit, the determination of whether the prescription is medically necessary will also take into account the guidelines set forth in PA.CP.PMN.59 Quantity Limit Override.

C. Clinical Review Process

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section B. above, to assess the medical necessity of the request for a prescription for a Glucocorticoid, Oral. If the guidelines in Section B are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior authorization will be approved when, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the recipient.

D. **Approval Duration: duration of request or 12 months (whichever is less)**
