Policy/Criteria

Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.

It is the policy of PA Health and Wellness® that SSRI Antidepressants are **medically necessary** when the following criteria are met:

I. Requirements for Prior Authorization of Antidepressants, SSRIs (Selective Serotonin Reuptake Inhibitors)

A. Prescriptions That Require Prior Authorization

Prescriptions for Antidepressants, SSRIs that meet any of the following conditions must be prior authorized:

1. A non-preferred Antidepressant, SSRI.
2. An Antidepressant, SSRI with a prescribed quantity that exceeds the quantity limit.
3. An Antidepressant, SSRI when there is a record of a recent paid claim for another Antidepressant, SSRI (therapeutic duplication).

B. Review of Documentation for Medical Necessity

In evaluating a request for prior authorization of a prescription for an Antidepressant, SSRI, the determination of whether the requested prescription is medically necessary will take into account the whether the beneficiary:

1. For a non-preferred Antidepressant, SSRI, **one** of the following:
 - a. Has a history of therapeutic failure, contraindication, or intolerance to the preferred Antidepressants, SSRIs
 - b. Has a current history (within the past 90 days) of being prescribed the same non-preferred Antidepressant, SSRI;

AND

2. For therapeutic duplication, **one** of the following:
 - a. Is being titrated to or tapered from a drug in the same class

- b. Has a medical reason for concomitant use of the requested medications that is supported by peer-reviewed literature or national treatment guidelines;

AND

- 3. If a prescription for an Antidepressant, SSRI is for a quantity that exceeds the quantity limit, the determination of whether the prescription is medically necessary will also take into account the guidelines set forth in PA.CP.PMN.59 Quantity Limit Override.

NOTE: If the beneficiary does not meet the clinical review guidelines listed above but, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary, the request for prior authorization will be approved.

C. Clinical Review Process

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section B. above to assess the medical necessity of a prescription for an Antidepressant, SSRI. If the guidelines in Section B. are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior authorization will be approved when, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary.

D. Approval Duration: 12 months
