## Clinical Policy: Pancreatic Enzymes

Reference Number: PHW.PDL.108

Effective Date: 01/01/2020

Last Review Date: 10/2021

[Revision Log](#)

### Policy/Criteria

*Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.*

It is the policy of health plans affiliated with PA Health and Wellness® that Pancreatic Enzymes are **medically necessary** when the following criteria are met:

### I. Requirements for Prior Authorization of Pancreatic Enzymes

#### A. Prescriptions That Require Prior Authorization

All prescriptions for non-preferred Pancreatic Enzymes must be prior authorized.

#### B. Review of Documentation for Medical Necessity

In evaluating a request for prior authorization of a prescription for a non-preferred Pancreatic Enzyme, the determination of whether the requested prescription is medically necessary will take into account whether the beneficiary:

1. Has **one** of the following:

- a. A documented history of therapeutic failure, contraindication, or intolerance of the preferred Pancreatic Enzymes
- b. A current history (within the past 90 days) of being prescribed the same non-preferred Pancreatic Enzyme.

NOTE: If the beneficiary does not meet the clinical review guidelines listed above but, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary, the request for prior authorization will be approved.

#### C. Clinical Review Process

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section B. above to assess the medical necessity of a prescription for a non-preferred Pancreatic Enzyme. If the guidelines in Section B. are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior authorization will be approved when, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary.

D. **Approval Duration:** 12 months
