

## Clinical Policy: Phosphate Binders

Reference Number: PHW.PDL.052

Effective Date: 01/01/2020

Last Review Date: 10/2021

[Revision Log](#)

### Policy/Criteria

*Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.*

It is the policy of health plans affiliated with PA Health and Wellness® that Phosphate Binders are **medically necessary** when the following criteria are met:

### I. Requirements for Prior Authorization of Phosphate Binders

#### A. Prescriptions That Require Prior Authorization

Prescriptions for Phosphate Binders which meet any of the following conditions must be prior authorized:

1. A prescription for a non-preferred Phosphate Binder.
2. A prescription for a preferred or non-preferred Phosphate Binder with a prescribed quantity that exceeds the quantity limit.

#### B. Review of Documentation for Medical Necessity

In evaluating a request for prior authorization of a prescription for a Phosphate Binder, the determination of whether the requested prescription is medically necessary will take into account the following:

1. For a non-preferred Phosphate Binder, whether the recipient has a history of therapeutic failure, contraindication, or intolerance of the preferred Phosphate Binders.

**AND**

2. If the prescription for a Phosphate Binder is for a quantity that exceeds the quantity limit, the determination of whether the prescription is medically necessary will also take into account the guidelines that are set forth in PA.CP.PMN.59 Quantity Limit Override.

**OR**

3. If the recipient does not meet the clinical review guidelines listed above but, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the recipient.

C. Clinical Review Process

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section B. above, to assess the medical necessity of the request for a prescription for a non-preferred Phosphate Binder. If the guidelines in Section B. are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior authorization will be approved when, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the recipient.

D. Approval Duration: 12 months
