COVID-19 PUBLIC HEALTH EMERGENCY EXTENDED BY FEDERAL GOVERNMENT

On July 23, 2020, HHS Secretary Alex Azar renewed the COVID-19 Public Health Emergency (PHE). This extends flexibilities and funding tied to the PHE to continue for another 90 days.

With this renewal the various testing, screening, billing, and telehealth coverages that were implemented in response to the COVID-19 PHE earlier this year will be extended to our members. This extension will continue until the public health emergency is ended. This extension does not affect coverages that had already been made effective through December 31, 2020.

Do you have any questions about this extension or the covered benefits impacted by it? Please contact Member Services.
